

MAXFLO INDUSTRIAL RUBBER HOSE

D107 - MAXFLO Super Air/Water Delivery Hose

A heavy duty , high pressure air delivery hose designed for use in the mining industries. 20 bar. Sizes 1/2" to 4" ID.

D109 - MAXFLO Synthetic Super Air Delivery

A premium heavy duty hose for high pressure use with a synthetic tube suitable for oil mist and greater heat. 20 bar. Sizes 1/2" to 4" ID.

D124 - MAXFLO Extruded Yellow Air Delivery

A quality hose with a oil mist resistant tube makes this a very versatile hose suitable for many applications. 20 bar. Sizes 3/8" to 2" ID.

D144 - MAXFLO Extruded Air Brake

Designed for use with Automotive Air Brake systems. Conforms to SAE J1402 Type A. 16 bar. Sizes 3/8" & 1/2" ID.

D602 - MAXFLO Food & Beverage Delivery

FDA approved food hose designed for the delivery of aqueous foods such as wine, juice and soft drinks. 10 bar. Sizes 3/4" to 4" ID

D606 - MAXFLO Food & Beverage Suction

A premium food quality suction & delivery hardwall hose designed for handling non-fatty foods such as wine and alcohols at 96C. 10 bar. Sizes 3/4" to 4" ID.

D610 - MAXFLO Food Milk & Beverage Suct/Delivery

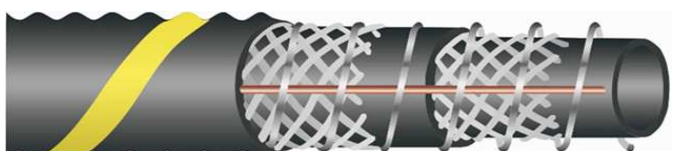

Special food suction & delivery hose for fatty foods such as dairy products, edible oil, beers & wines. 10 bar. Sizes 3/4" to 4" ID

D801 - MAXFLO Muff Coupling/Materials Handling

Heavy duty hose designed for the transfer of slurry and wet abrasive materials in mining and industrial applications. 10 bar. Sizes 2" to 12" ID.

D850 - MAXFLO Dust Collector

Light material handling and airseeder mandrel built hose with steel wire helix and corrugated cover for flexibility. 10 bar. Sizes 4" to 8" ID.

D204 - MAXFLO Standard Water Delivery

A general water delivery hose for use in a wide range of applications. 10 bar. Sizes 3/4" to 12" ID.

D214 - MAXFLO Water Suction

A heavy duty water suction hose for all water suction and discharge applications. 10 bar. Sizes 3/4" to 12" ID.

D220 - MAXFLO Contractors Water Suction

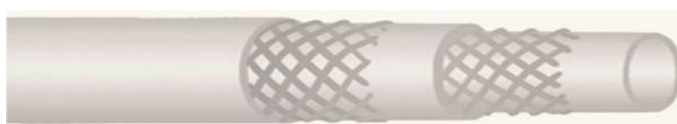

Corrugated flexible hose with cuffed ends for easier insertion of fittings. 3 & 6 metre lengths. 10 bar. Sizes 3" to 8" ID.

D225 - MAXFLO Extruded EPDM Water Delivery

For use in a wide range industrial, construction and agricultural water discharge applications. 14 bar. Sizes 1/2" to 1" ID.

D229 - MAXFLO Extruded White Washdown

An extruded hose recommended for cold or hot [90C] washdown applications. 14 bar. Sizes 1/2" to 1" ID.

D200 - MAXFLO Straight Radiator Hose

A straight length radiator hose for use in the automotive industry. 3 bar. Sizes 1/2" to 6" ID. 1 metre lengths.

D830 - MAXFLO Air Seeder Suction

Hardwall hose designed for dry conveyance of seeds on airseeders and other medium duty abrasives and service. 10 bar. Sizes 1 1/4" to 3" ID.

D804 - MAXFLO Bulk Materials Handling

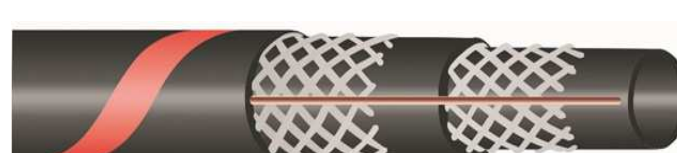

Specially designed softwall hose for delivery of dry cement sand, gravel and other abrasive materials. 10 bar. Sizes 3" to 6" ID.

D835 - MAXFLO RC Drill

Engineered specifically for use on reverse cycle drilling rigs where high pressure, high volume abrasives are conveyed. 35 bar. Sizes 2" to 4" ID.

D401 - MAXFLO Petrol & Oil Delivery

A general purpose hose for all petrol and oil delivery applications. Suitable for use in industrial, marine industry. 10 bar. Sizes 3/4" to 6" ID.

D404 - MAXFLO Petrol & Oil Suction/Delivery

Designed for use in petroleum suction and discharge applications. Also suitable as a heavy duty wet marine exhaust hose. 10 bar. Sizes 3/4" to 8".

D414 - MAXFLO Wet Exhaust [Lloyd's Approved]

Designed as a lightweight flexible wet marine exhaust hose for conveying wet exhaust fumes. Lloyds approved. 5 bar. Sizes 1" to 12" ID.

D420 - MAXFLO Automotive Fuel Line

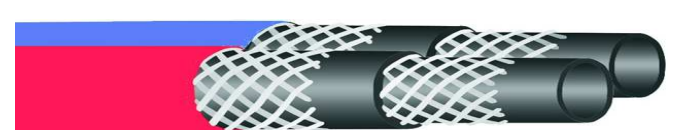

Designed for the delivery of petroleum based product with aromatic content up to 50% for automotive fuel line. 5 bar. Sizes 5mm to 12mm ID.

D902 - MAXFLO Extruded Red Multipurpose

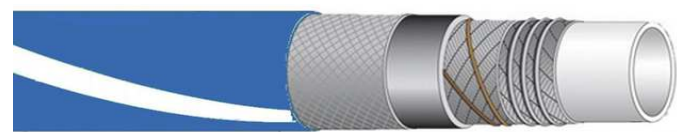

A premium quality hose offering a one-hose solution to most hose requirements. Suitable for air, water and oil. 20 bar. Sizes 1/4" to 2" ID.

D30* - MAXFLO Welding Hose

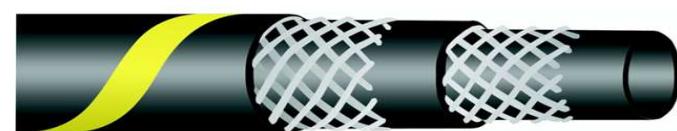

Premium quality welding hose in single line and twin-line for gases such as oxygen, acetylene, argon and LPG. 20 bar. Sizes 5mm & 10mm.

D710 - MAXFLO Acid & Chemical Suction/Delivery

Hardwall hose designed with UHMWPE tube. Excellent in handling a wide range of chemicals, petroleum and oils. 16 bar. Sizes 3/4" to 4" ID.

D803 - MAXFLO Sand and Shot Blast

Sand and shot blasting hose where moderate pressures are encountered. Recommended for delivery of abrasive materials. 10 bar. Sizes 1/2" to 2" ID.
